

REMARKS

The above amended section is filed in view of a telephone conversation between Appellant's representative, Michael Word, and Patent Appeal Center Specialist Darlene Brown on September 10, 2008, during which Ms. Brown stated that by including specific reference to independent claims 1 and 6 on appeal, the "Summary of Claimed Subject Matter" would be considered compliant.

For purposes of convenience, Appellant hereby restates the citation method utilized in the amended section and the brief as originally filed: the citation "*Cl. App. __*, at *__:__*" refers to the named Claim Appendix document attached to the originally filed Brief, as well as the page and line of the citation. For example, "*Cl. App. B*, at 4:17-21" refers to page 4, lines 17 to 21 of the document attached at Claims Appendix B of the originally filed Brief. Appellant also notes that the document at Claims Appendix B is the specification of the application on appeal. In addition, Appellant notes that, in accordance with legal citation convention, "id." is the abbreviated form of the term "ibid," which indicates that the document referred to in the current citation is the same document as in the prior citation. Thus, *all citations* in the amended section above refer to the specification of the application on appeal, and all references indicate the page and line number of the specific passage(s) in the specification.

Should any representative from the United States Patent and Trademark Office wish to discuss the case, he or she is invited to contact the undersigned at 312-701-8178.

Respectfully submitted,

Date: September 30, 2008
